

# Van Based Motorhomes

[trakka.com.au](http://trakka.com.au)

## Torino - Equipped for spontaneous adventure

---

Built from the Fiat Ducato XLWB, this home away from home includes 6-speed comfortmatic transmission (automatic) with a 2.3L 177hp Turbo Diesel engine. At just 6.36m in length, the Torino is our most compact and affordable, van based motorhome.

Custom built for comfort, versatility and better drivability, the Torino features:

Driver and passenger swivel front comfort seats with armrests, a folding coffee table and highly functional and spacious kitchen.

---

Designed to maximise space, the Torino features long North/South single beds, which simply convert to a double. The rear area can also be used as day lounges or additional dining area.

## Torino Xtra - Open the door to flexibility

---

With 3-point Inertia Reel Seatbelts for four passengers, the flexible and compact Torino Xtra is ideal for day trips and long haul adventures. Designed for ease, the Fiat Ducato XLWB based Torino Xtra measures 6.36m in length and is brimming with quality inclusions and car-like features. The Torino Xtra also boasts the most versatile rear storage on range.

From cabinetry and livery through to ergonomics, visibility and efficiency, the Torino Xtra includes all the features of the Torino base model and more:

Front seats swivel to meet a double lounge providing a spacious and formal dining area with extra legroom.

---

Redefining storage, the east/west double bed is built on gas struts, and when in its upright position, provides walk through access, space to stow your longer, bulkier adventure equipment, additional living space and extra sitting area.

## Jabiru - First class all the way

---

Built for touring, the Jabiru is one of the most refined and impressive motorhomes on the market and a seasoned performer on any road.

Based on the Mercedes-Benz Sprinter 419 with 7-speed automatic transmission, the 3L V6 Turbo Diesel Jabiru is ideal for those seeking a deluxe getaway and can be driven on a standard car licence.

At 7.1m in length and 2.78m in height, the Jabiru offers additional ventilation and natural light in the front cab as well as extra-long north/south single beds (or one double), a generous rear lounge capability and a thoughtfully curated interior space.

---

The rear wheel drive Jabiru is available with a variety of engine and Gross Vehicle Mass choices to suit your travel needs. It showcases Trakka's dedication to bespoke luxury adventure.

## Jabiru Xtra - Lounge and live large

---

The Jabiru Xtra, an unbeatable luxury motorhome based on the Mercedes-Benz Sprinter, provides power and efficiency on the road, while it's 7-speed automatic transmission delivers a smooth, fast and safe journey.

So versatile, the Jabiru Xtra features 3-point Inertia Reel Seatbelts for four passengers and is designed to comfortably sleep two people. Inside, front seats swivel to meet a double lounge room providing the Jabiru Xtra with a spacious and formal dining area with additional legroom.

---

While pods on either side of the vehicle enable a generous and permanent East/West 1.93m double bed configuration, passengers will also retain easy internal and external access to the large tiered boot storage.

## Jabiru 4x4 - Unrivalled adventure seeker

---

The high performance Jabiru 4x4 and Jabiru 4x4 Xtra motorhomes are based on the Mercedes-Benz Sprinter 519 and are designed for serious adventure-seekers.

Built to reach isolated camp spots which require greater traction, you have the security knowing you won't need to turn back in this motorhome with engageable all-wheel drive and low range ratio. Whether it's the soft sand dunes of the Simpson Desert, Old Strzelecki Track or Frazer Island beaches, the Jabiru

4x4 and Jabiru 4x4 Xtra will take you there in comfort.

The Jabiru 4x4 will give you incredible traction and stability along long stretches of deep corrugations, washouts and rutting as well as handle deep creek crossings and the muddy, slippery conditions of flood plains after heavy rain.

## Equipment Highlights

### Spacious and Innovative

The patented Switch Mode Bathroom is a cleverly executed cubicle that offers generous showering room with a unique remote controlled retracting cassette toilet under the vanity. When showering, the retracted toilet stays dry, while a screen covers your towels, toilet paper and doorway. The bathroom is beautifully finished with a teak grate, vanity basin, shaving cabinet and LED lit mirror.

### Electronic Control Panel

A customised TRAKKA Electronic Control Panel monitors the charge of your vehicle and house batteries, water tank levels and temperatures so, with the touch of a button, you're across your campervan's immediate efficiencies.

### Al Fresco Living

The Trakka van-based range includes an electric awning with dimmable LED strip lighting, an external shower system, an outdoor work bench for hosting drinks or assistance throughout meal prep as well as a powered side entry step (except on the 4x4 range).

### First Class Finishes

Throughout our interiors we use Euro4-standard plywood, a material that does not contract, swell and warp. This water resistant, lightweight and non-deformable material has an exceptional finish as seen in our kitchen drawers. While custom cutlery space is included in the kitchen, all remaining drawers come in a variety of depths to accommodate assorted storage. Easy to clean and remove, all drawers have self-latching locks and reliable multi-ball bearing runners, which provide a smooth running and silent closing function.

New Formwork cabinetry colour available.

### Independent Adventure

Planning an out of the way escape or a more self-sufficient holiday? The Remote Pack is essential. Alleviating the need to camp at powered sites this single fuel source package features even more thermal and sound insulation, a solar charging system, diesel fuelled cook top and combined diesel room and water heater.

## Equipment Highlights

### Bespoke Conversions

Would you like to tailor your Trakka to your travel needs and taste? Choose from a variety of options, including van exterior, cabinetry and upholstery colour choices; and well as an extensive range of camping accessories designed to enhance your outdoor experience. Trakka have joined forces with a number of well-known, bespoke brands to ensure your motorhome stays luxurious and fresh, and your comfort never wanes.

### Streamlined Serviceable Storage

Enjoy overhead lockers with integrated LED strip lighting and dimming function. These lockers feature integrated crockery storage for the convenient and secure positioning of plates, mugs and bowls. At the front of each locker, cupboard and bathroom are roller shutter doors. Modern and practical our shutter system will maximise a compact interior space, is built to withstand knocks and won't burst open on the road.

### Enjoy separate living areas

The front of Trakka's motorhomes are like an entertaining hub. The seats swivel and we've included both a fold down coffee table and large removable dining table with an offset swivel to enable easy access. The TV/DVD is securely fastened for travel and is within a 'comfortable viewing zone' from your outside living area under the awning, as well as anywhere in your camper.

### Vehicle Assurance – Peace of Mind

Designed with safety and comfort in mind, the Trakka van-based motorhome range comes standard with driver and passenger airbags, ABS brakes, ESP, traction control systems, multi-function steering wheel & trip computer, cruise control, navigation as well as rear-view and reversing camera. These features ensure car-like drivability wherever you travel.

### Privacy and Shade

Trakka's 2-in-1-window blind system combines a pleated mesh screen with a pleated blackout fabric. The blackout fabric is resistant to light and locks to the screen so they can be positioned at any preferred height along the track; you can have privacy, shade and the benefits of a quality fly screen system.

### Fiat Safety

Driver & Passenger Airbags  
ABS Brakes, Electronic Stability Program & Traction +

### Front Cabin / Lounge

Radio/CD, Bluetooth, Media-In & Rear Speakers

## Our Story

If you've ever hit the Australian open road there's a good chance you've seen the name Trakka along your travels. Developed some 43 years ago from a childhood passion for adventure, our family owned and run business has become a trusted market leader in the RV industry. Many Australians at some stage in their life have a dream of freedom travelling around our great and diverse country. Our team makes that happen.

## Why Trakka

We have an award winning fleet, over four decades of experience and we make quality, luxury campervans and motorhomes to suit your travel needs. We all have a different sense of what 'adventure' means, so too are our needs and wants when it comes to a motorhome and campervan conversion; and that's where Trakka's experience comes into play...
